Ghosts in the White House

Grades 3+

We're getting in the spooky spirit for Halloween!

Some say the ghosts of former Presidents haunt the most famous house in our country, the White House. Have you ever heard or seen something you can't explain? Share it with a friend and then dive into the haunted history of the ghosts at 1600 Pennsylvania Avenue. (Turn the lights down for a super spooky reading!)

Take a virtual **tour** of the White House and then pick a **President** to research. Share 3 amazing and interesting facts about your President, plus share one quality that you think is essential for a President to have.

If you're ready for more spooky stories, check out these **tales** that are perfect for a campfire or the comfort of your couch!
